# WELCOME...

## ***aboard, GBART 2023***

**GBART** this year promises to be exciting, super creative and packed with things to do in the region. Once again, **GBART** founder, Rosy Chapman has brought her vision of an art trail to life.

Our creatives this year are many and varied. You may like to visit some studios or **GBART Central** to take a class. There is so much to do and see from pottery to fibre and practical craft, silver smithing, water colours or oils. There really is something for everyone and there will be music as well.

I am particularly looking forward to the opening event with **Terri Welles** at **GBART Central**. It's great to see **Matthew Manahan** coming home and taking a brief respite from his highly successful stage career for our ***Feeling Fine*** family night of music on Saturday at the **Peter Bonner Exhibition Hall**.

I have to give a huge thanks and shout out to all the creatives – the trail is all about you. Thanks to the **SDRC**, and the **RSL** for their support. Most importantly, thanks to all our sponsors and to **local businesses** who have stood with us.

Lastly and definitely not least... the **GBART Committee** and **volunteers**. Thank you for making it happen.

The hit song said, ***"You gotta follow that dream wherever that dream may lead"***

I hope your dream leads you to **GBART** and any number of the fabulous events to fulfill your creative dreams.

***See you on the trail!***

Using replica and antique hand-cranked circular sock knitting machines, Dani creates bright and warm merino socks. The technology for the machines has remained relatively unchanged since the 1870s, and creates beautiful and comfortable socks to this day!

Although the technology hasn't changed, modern yarns provide a colourful addition to the art, commercially blended and dyed yarns keep socks bright and strong for many years, without needing to darn.

In addition to creating wearable artistic socks, Dani also dyes merino, silk and bamboo yarns, the rainbow of colours allowing others to make their own 'slow' fashion, and keep the traditional crafts alive.

Hi I'm Jason the artist behind Art @ Anvil Hill. Little did I know 6 years ago, when I moved to the granite Belt just how much my art would change and evolve into what it is today. I started out perfecting handmade carbon steel fry pans which became very popular and were soon selling all over Australia. From there things got interesting and ideas for quotes and poems started coming to me all hours of the night so I started writing them down. Having accumulated quiet a number I decided to write and publish my first quote book which is called 'Only The Messenger'. Then things really took a turn. I had a dream to do 2 pieces of art. Having no art experience, I started researching Artists and Art in general. This triggered something and a passion to create exploded inside of me. I studied Picasso, De Kooning, Monet, Basquiat, Arthur Boyd and loads more to get some idea about art and what it was. Fast forward to now and what was an empty packing shed is full of large, thought provoking and unique pieces of art in oil and acrylic in my own ever evolving style.

Watercolour is my preferred medium, loving the results gained by the flow of water and paint. I have been tutored by many top Australian Artists and have attended Grafton Arts School many times over the years. I have a fascination with the effect of light and detail to capture and re-create the images. I have developed a combination of loose and detailed styles in one painting. Flowers, buildings and portraits are my main subjects. I sincerely hope viewers emotionally connect with the experience that motivated me to paint these scenes.

Naomi is a contemporary Indigenous Australian artist. She was born in Sydney, resided in Perth for 43 years, but has now relocated to Stanthorpe. Since 2000 she has won over 20 awards, including the Inaugural Hawkesbury Art Award. Her work is represented in many private and govt collections and galleries in Australia and overseas. She graduated with a textile design degree in 1980 and has had a successful career as a practicing artist and designer and art teacher spanning the past 44 years.

Naomi is a visual master painter, distilling the essence of the land and the moment, in the minds' eye. With her background in textile design, she often relays the beauty, pattern and colour that she sees in the environment. Her art practice portrays, the land and the water in many ways, ranging from dreams, memories, realism, and abstraction.

In the last 20 years Naomi's focus has been in acrylics and collage, having developed a technique of using layers of colored tissue paper under and over the painted surface. This gives the surface a three dimensional textural quality.

She is often literally painting with paper.

# BALANCING HEART

## VINEYARD

### WINES WITH HEART

Located on the picturesque Granite Belt, Balancing Heart has developed a reputation as the region's most sought-after winery experience. As well as a gorgeous cellar door that showcases Balancing Heart's range of cool-climate wines, the vineyard is home to some of the most stunning granite boulders in the region.

Immerse yourself in the history, philosophy & spirit of Balancing Heart wines through a journey of discovery at our newly renovated modern cellar door.

### WINERY EXPERIENCE

At Balancing Heart, we are dedicated to crafting memorable experiences for you to savour.

Start your visit with a tasting at the cellar door, followed by a relaxing walk through the vineyard. You can also feed our Scottish Highland cows, Shiraz & Vinnie and our recently arrived Shropshire lambs. Settle into the afternoon with our famous pizzas and wine, watching the sunset with our talented live musicians (every Saturday).

Finish off your evening with a fine selection of whisky & cigars at our onsite Rabbit Hole whisky bar.

### OUR CELLAR DOOR

Our must-visit cellar door offers outstanding wines that can be expertly matched to your tastebuds. Enjoy your wine inside by the fireplace, outside on the deck with live music (every Saturday), or at grass seating overlooking our beautiful dam.

### WEDDINGS & EVENTS

Balancing Heart has just added a beautiful function centre and dressing suites to our vineyard available for weddings and events. Talk to our team today to plan your next event at Balancing Heart.

### EVENTS

Plan your next visit experience with a dedicated tour by reservation.

Every Saturday afternoon starting at 1:30pm, you can book a philosophy of wine experience where you are immersed in a 90-minute tour with our winemaker Mike Hayes. You will learn about the philosophy of making Balancing Heart wines, the geology of our vineyard and the geography. *Bookings essential.*

#### Live Music

Enjoy live music at Balancing Heart every Saturday 12-7pm.

#### Balancing Heart Bus Service

Stopping at Stanthorpe, Glen Aplin and Ballandean, our bus runs every Saturday from late afternoon into the evening. Tenterfield collection runs every Saturday at midday outside Bad Manners. \$10 per person. *Bookings essential. Contact us for more info.*

ART OF  
*Krupinski*  
FAMILY VINEYARD & ESTATE

Welcome to bear country! New comers to the region, Natalia & Artur Krupinski have taken a well established vineyard and turned it into a family run winery and cellar door.

Their core values stem from their Polish heritage focused on celebrating their national pride and vibrant traditions; adding a new flavour to the Granite Belt Wine Region. Inspired by their parents' legacy the family hopes to continue for generations to come.

Whilst Art of Krupinski takes their wines seriously, there is always time for fun and laughter along the way. Immerse yourself in storytelling, beautiful views and of course, great wine. Yes Fur Baby Friendly.
